ZILLAH

Tall, massive plant; extra dark green foliage, straight, tall spike; big flower head; 6-8 massive flowers open; color is a soft warm yellow; florets are well ruffled.

Here is what Prof. Pridham, of Cornell, has to say about 'Zillah'—

"Parkman's Zillah is a **marked advance** in the yellow group. It is of *Primulinus Grandiflorus* type with large ruffled florets of ideal form, and ideal spike, with a marked tendency to early flowering thrown in for good measure. The variety has ample substance in the floret.—PRIDHAM.

\$2.00 each
